A diagram showing a stepped profile, likely representing a weir or a series of steps in a channel. A horizontal dashed line at the top represents the water surface. A vertical double-headed arrow on the right side, labeled 'VFD', indicates the vertical flow depth from the water surface to the bottom of the steps. The profile consists of several horizontal and vertical segments. The bottom-most segment is shaded with diagonal lines. The area between the water surface and the bottom of the steps is filled with a stippled pattern.
